# Website Accessibility WCAG Checker

Website accessibility and compliance made simple. Create a website that is built with accessibility in mind and in conformance with WCAG standards, with the help of the Recite Me Accessibility Checker.

# Let's create a website that is accessible to everyone!

We all know that our websites need to be built to an accessible standard. But where do you start on this journey, how do you make your website accessible, and how do you make it compliant?

The world of accessibility and making your website compliant with a law or standard can be a confusing and daunting subject for many. The Recite Me Accessibility Checker is changing the way we address WCAG issues on our websites. The key is to simplify the process and tasks while supporting you with expert knowledge. Together, you'll become an accessibility hero in no time!

## Scan

Your accessibility journey starts here with a scan of your website covering WCAG 2.1 success criteria encompassing:

- Site performance overview
- Accessibility scoring
- Findings per rating
- Error breakdown

The scan report includes an overview of errors, the locations of errors, and a comprehensive list of actionable errors to fix and check.

## Fix and Check

Our software identifies areas of non-compliance and shows you what to fix and check, with a prioritised list for the biggest improvements against your efforts, investment, and time. Recommended fixes are confirmed WCAG failures identified via an automated scan, and checks are potential errors that a human needs to verify. For example, a computer can identify if an image on a website has an alt-tag attribute or not. However, human eye is needed to make sure that the alt-tag text accurately describes the image.

Believing in Accessibility for All

## Track

Our compliance tracking service helps you manage your web accessibility improvements over time, make the most effective changes in the right order, and manage your fix queue. You can examine various elements of WCAG compliance by exploring different scans and download your website's scan accessibility score and report to track your positive journey.

## Share

We give you all of the tools needed to demonstrate your commitment to developing an accessible website. You can share your accessibility report and score to showcase your digital inclusion goals and achievements via:

- Custom monthly reporting
- Ongoing engagement analysis
- Accessibility scoring
- Downloadable fix lists
- Access to the Recite Me Hub which features materials highlighting the depth of information behind your website's scan and results.
- Resources include FAQs, full breakdowns of testing methodologies, and 'how to' videos.

## Start Your Web Accessibility Compliance Journey Today

Get to work on your online inclusion strategy today by working your way through these action points:

1. Contact our team for more advice about WCAG standards and the web accessibility legislation that applies to your organisation.
2. Learn more about the Recite Me Web Accessibility Checker.
3. Run a free check of your website for WCAG 2.1 AA compliance.
4. Schedule a free demonstration of our checker or assistive toolbar in action to better understand how our technology can help you.
