

Create Inclusive Experiences Online

With Accessibility and Translation Software

From creating ADA and WCAG-compliant websites to providing customized user experiences, Recite Me is here to help you become more inclusive online through a range of accessibility solutions.

Why Create Inclusive Online Experiences?

In today's world, everything we do is online, from booking vacations and shopping to looking after finances. Every website user deserves an inclusive online experience to be able to navigate and consume content hassle-free.

The Right Thing to do

Everyone should have the opportunity to be able to access online content. Make your website inclusive to all by supporting people who are neurodiverse, visually impaired, speak English as a second language or of old age.

The Smart Thing to do

Make your business available to a wider audience and enhance the user experience on your website. Providing accessibility technology increases web traffic and user engagement, and ultimately leads to more sales conversions.

The Thing I must do

There are several federal and state laws, plus many local regulations that stipulate how a website should be designed and built. Avoid negative customer sentiment and possible lawsuits by providing an inclusive experience online.

Recite Me 2022 Data Overview

Over 1 billion people worldwide encounter barriers when trying to read and understand content online. This can be due to disabilities, learning difficulties, visual impairments, or if people speak English as a second language.

"Staffmark Group's commitment to belonging has reached new heights as we remove accessibility barriers and offer an inclusive experience for all our website visitors with the addition of Recite Me tools. As part of our diversity and inclusion strategy, we believe that accessibility is a necessity and a right for all, and now visitors to all nine Staffmark Group websites can access a wide range of accessibility and language support tools to customize their digital experience through Recite Me assistive technology.

Ashley Oliver, Director of Diversity, Equity, & Inclusion, Staffmark Group

How Does Recite Me Help You Stay Accessible?

Recite Me offers a range of on-demand accessibility solutions to help you comply with ADA and WCAG standards while ensuring your website is user-friendly for individuals with disabilities, situational challenges, and language needs, through customization and translation options.

Recite Me Toolbar

The Recite Me cloud-based technology toolbar makes your website digitally inclusive by allowing visitors to customize your content so that they can consume it in ways that work best for them.

Screen Reader

Providing our screen reader will help website visitors to perceive and understand your digital content by reading aloud website text, which can be customized to suit the viewer.

Reading Aids

To simplify use and support your website visitors, the Recite Me web accessibility toolbar provides five main tools; ruler, screen mask, magnifier, margins, and a dictionary.

Customization

Recite Me assistive technology allows people to change the way a website looks. Users are able to customize the website's color scheme as well as the text, font style, size, color, and spacing.

Translation

Recite Me web accessibility technology quickly and easily translates all your web content into over 100 languages, including 64 text to speech voices.

Recite Me Checker

Website accessibility and compliance made simple. Create a website that is built with accessibility in mind and in conformance with ADA and WCAG standards, with the help of the Recite Me Accessibility Checker.

Scan

Your accessibility journey starts here with a scan of your website covering WCAG 2.1 success criteria.

Fix

We show you what to fix for the biggest improvement against your internal efforts and time.

Track

Improve your web accessibility improvements over time and manage your fix queue.

Share

Share your accessibility report & score to showcase your continuing journey to digital inclusion.
